

Dear Colleagues,

As chairperson of the organizing committee, I would like to remind you to mark 5th – 6th November 2010 in your agenda as a date for event you would not like to miss. It is my great pleasure to encourage you to attend **THE SECOND CONFERENCE ON MEDICAL PHYSICS AND BIOMEDICAL ENGINEERING** that will be held in the beautiful city of Skopje, Macedonia.

Through the conference lectures and poster session, a review of many recent works in the field of Medical Physics & Biomedical Engineering in Macedonia and wider will be presented. It will also provide exchange of information, development of collaboration and further scientific cooperation between colleagues. We therefore welcome your commitment, effort and energy in helping us make this meeting the most exciting and thriving yet. We hope that we can count on your collaboration.

If a conference does not give its participants time to relax, it cannot be successful...So, let us also not forget our host city Skopje, the place where west and east, past and future match each other and make its specific charm, we urge you to take time out to enjoy.

I hope, besides the lectures, the unique beauty of our small country will provide yet further reason for joining us this November.
